

TIGA Test Document - Page 1

This is page one of the test PDF fixture. It contains introductory material about the project brief, site context, and initial client aspirations for the development.

TIGA Test Document - Page 2

Page two covers the design principles and concept narrative. The architectural approach draws on the industrial heritage of the surrounding area while introducing contemporary interventions.

TIGA Test Document - Page 3

The third and final page presents the programme schedule and delivery milestones. Practical completion is targeted for Q3 of the project timeline subject to planning approval.
